

CARE MANAGEMENT FOR HIGH COST DEMONSTRATION

MONTEFIORE FACT SHEET

Updated 2/5/09

Demonstration Overview	<ul style="list-style-type: none">• This three year demonstration tests provider-based intensive care management services as a way to improve quality of care and reduce costs for fee-for-service beneficiaries who have one or more chronic diseases and generally incur high Medicare costs.
Montefiore Care Guidance “Care Management Organization” (CMO)	<ul style="list-style-type: none">• Three year Medicare fee-for-service population model demonstration approved for the period of June 1, 2006 through May 31, 2009• Demonstration Authority: Section 402 of Public Law 90-248, as amended (42 U.S.C. 1395b-1)
Geographic Area	<ul style="list-style-type: none">• New York: The Bronx• Currently 1,257 participating beneficiaries (January, 2009)• Distribution of 4,000 beneficiaries and 912 beneficiaries were added in June 2007 as a refresh)
Disease Management Benefit	<ul style="list-style-type: none">• Thorough bio-psychosocial assessment is conducted on all program participants. This assessment helps to identify gaps in health-related care and social services and to stratify participants by risk level.• Offers enhanced home-based services to participants using telemonitoring equipment and home visit programs.• Offers medication management with pharmacists, falls prevention, palliative care, and disease management programs.• Offers care coordination among patients’ multiple healthcare providers.
